

October 12, 2009

Axiom Properties, Inc. has utilized American Security since February of 2009. We have two large apartment communities in Madison that rely on their services. The Meadows Apartments on the far east side has used some limited services, including twice per night checks of the parking lots and grounds that has helped minimize loitering, vandalism & parking issues. Park Village Apartments on the south side takes advantage of a fulltime patrol guard on duty, seven days a week, each evening touring the property to ensure that there is no loitering, parking issues, trespassing, vandalism, etc. There is a nightly report that is completed that allows the office personnel to be responsive and give immediate attention to any issues that may have been documented. Park Village is located in a challenging area and American Security has helped us maintain a very peaceful property in the middle of a busy neighborhood. American Security has also been very responsive when we need additional services for special events that arise.

Axiom Properties, Inc. will continue to utilize the services of American Security during 2010. We have been very pleased with the services we have received and with the professionalism in handling our account.

If you wish to get more information or a reference, please feel free to contact me.
