April 7, 2009

American Security has been my choice of security company for about three years now. We were experiencing weekend damage to the property, out of hand parties and generally large volumes of people loitering in the lobby and hallways. I hire American Security for all Wisconsin home football games, Mifflin Street Block Party and Halloween. These tend to be busy weekends in and around the apartment and it is nice to have American Security keep things from getting out of hand. The officers will walk the ten floors to make sure no one is loitering in the hall and that people are not being too loud and out of hand. American Security is very professional and reliable. They come to do a job and they do it well. I will continue to use American Security for all my security issues.
